Hassle-free retirement on pristine KZN coast

CORAL COVE, by Auria Senior Living, is a significant retirement development in Zululami Luxury Coastal Estate, on the shores of Sheffield Beach, KZN.

This luxury residential development on the North Coast raises the bar for those seeking a comfortable, hassle-free lifestyle in their older years, says Auria Senior Living chief executive Barry Kaganson.

"Given the growth on the North Coast over the past few years, the provision of lifestyle environments

for senior citizens hasn't been catered for fully and Coral Cove is the first to comprehensively address this need."

He explains Continuing Care Retirement Communities (CCRCs), such as Coral Cove, are purpose-built, secure retirement communities in which older adults can live enjoyable, hassle-free lives with access to a wide variety of hospitality services, amenities, care and support.

Auria Senior Living owns and operates CCRCs throughout South Africa,

and has received numerous prestigious international awards, placing them among the best in the world.

Coral Cove offers intentionally designed free-standing garden villas, maisonettes and apartments to suit independent living and assisted living, Kaganson says, adding: "Coral Cove will be, to the very best of our research and knowledge, the only senior living community of its kind in the world with direct access to the pristine North Coast shoreline."

The retirement community will offer extensive lifestyle facilities, such as outdoor and indoor heated pools; an air conditioned cinema; entertainment facilities; a restaurant; coffee shop; fully equipped wellness centre, state-of-the-art care centre and catering for frail and dementia-care residents.

The care centre will be operational as the first residences are occupied.

For more information email coralcove@auria.co.za or contact 087 537 0539.

CORAL Cove is believed to be the only senior living community of its kind with direct access to the pristine KZN North Coast shoreline.
